

New Release Bulletin for March 12, 2009

The **My Catalog** feature will allow sales associates to create catalogs tailored to their selling preferences or their customer's requirements. Associates seeing a client with a very unique inventory needs can increase potential sales by creating a catalog of items tailored for that customer.

For more information on this new feature and to learn how to use "My Catalog" please click on the PDF icon below. This will take you directly to our "My Catalog" help file.

New Updated Help Section Now Available

Please remember to visit our new **Help** page often as we are updating it frequently. Once there you will have the option to choose either a **PDF** or animated **Flash** tutorial version of our help sections. This **Help** section is also available by clicking on the **Help** button in your REMOTE program when connected to the Internet. Please click on the link below to go to our **Help** section now.

Stayed tuned for more updates!

Your business is important to us; please do not hesitate to contact us with any improvements you would like to see and we will endeavour to make it happen.

With best regards,
Your Sentient Data Team
